Note: The determination of census dates for Diploma of Nursing courses are published upon the course start date being finalised by Partners In Training Australia

Census dates are accurate at time of publication.

Census days and withdrawal

The census date is the most important date for you to know about. It is the deadline set by PTA and the last day you can:

- complete the eCAF to access a VET Student loan, or
- withdraw your enrolment without incurring the cost of debt for that course.

Your total tuition fee will be divided by the number of your course census days. You will be liable for a portion of the tuition fees associated with each census day. A schedule of VET Student Loans census days is available below.

You may withdraw your VET Student Loan enrolment at any time in accordance with Partners in Training's withdrawal policy and procedures set out in our Student Handbook. Withdrawal **on or before** the census day will result in you not incurring a VET Student Loan debt and/or receiving a refund for any up-front tuition fee payments made on or before the census day. If you withdraw or cancel your enrolment **after** the census day for a Unit of Study, you will still incur a VETSL debt that you are required to repay to the Commonwealth, regardless of whether you attend training sessions or submit assessments. If you made an upfront payment, you are **NOT** eligible for a refund of that payment.

If you failed the unit or withdrew after the census day because you became seriously ill or because of other special circumstances, you can apply to your provider to have your VETSL debt removed.
